

REPUBLIC OF BASHKORTOSTAN

One of the oldest oil-producing regions of Russia
The Republic is among the leaders in terms of oilstock refining output
Area – 14 000 sq. m.
Capital – Ufa city
Population – 4 000 000
7th place in Russia in terms of population
More than 100 nationalities
The Republic shares borders with 6 territorial entities of the Russian Federation: the Perm Territory, Sverdlovsk Region, Chelyabinsk Region, Orenburg Region, the Republic of Tatarstan and the Udmurt Republic.

Bashkortostan is the main producer of light petroleum products in the country and ranks

1st place

in diesel fuel production,
production of calcined soda,
bicarbonate soda and silica gel

2nd place

in production of motor petrol,
volume of crude
oil for refining

3rd place

in production
of plastics
in primary forms

The region holds leading positions among the constituent entities of the Russian Federation in the production of chemical products:

1st place

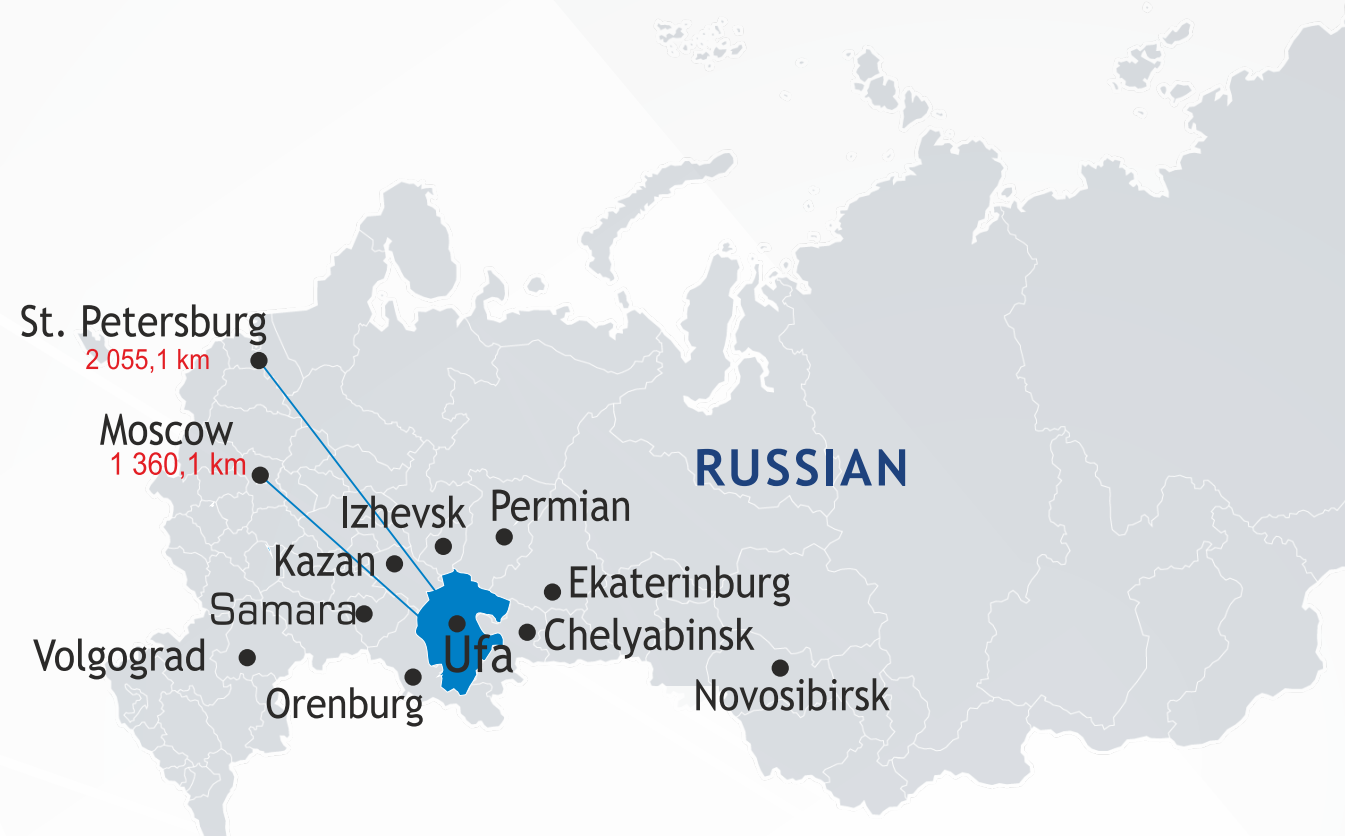

in benzene production

2nd place

in production of xylene;
styrene; synthetic rubber

3rd place

in production of caustic soda,
technical sulphur

WE INVITE YOU TO TAKE PART
in the Russian Petrochemical Forum and the
33rd International Exhibition Gas.Oil.Technologies - 2025

EXHIBITION CONCEPT

- 🔥 The Republic of Bashkortostan is one of the main oil-producing regions of the country, a center of chemical industry and mechanical engineering.
- 🔥 Gas.Oil.Technologies is an established brand with a strong reputation and federal recognition for 32 years.
- 🔥 The event is among the top 3 largest oil and gas exhibitions in the country.
- 🔥 Supported by the Government of the Republic of Bashkortostan and line ministries, as well as industry associations and unions.
- 🔥 Co-organization with the Russian Petrochemical Forum: 40 industry sections, 4 areas, federal experts and networking.
- 🔥 Direct meetings and negotiations with the heads of governmental structures of federal and regional level.
- 🔥 Annual participation of more than 300 enterprises of equipment manufacturers and oil, gas and chemical industry technologies of the Russian Federation and friendly countries.
- 🔥 The exhibition is held on the territory of 4 halls, Pavilion and outdoor exposition (the area of 15 000 square meters).
- 🔥 Over 21,000 experts from all regions of Russia, CIS and non-CIS countries visited the event (by the end of 2024).
- 🔥 Business meetings with the participation of heads and technical specialists of oil and gas and chemical enterprises in the region.

EXHIBITION SECTIONS

- 🔥 Exploration and Production of Oil and Gas
- 🔥 Construction and Development of Oil Fields
- 🔥 Oil Refining and Petrochemistry
- 🔥 Chemistry: Equipment and Technologies
- 🔥 Supply and Sale of Oil, Gas and Oil Products
- 🔥 Machinery and Equipment for the Natural Gas Vehicle Fuel
- 🔥 IT-Technologies in Oil and Gas Industry, Digitalization
- 🔥 Pipeline valves. Valve actuator. Compressor equipment
- 🔥 Industrial control system and control and measurement instrumentation
- 🔥 Electrical Equipment for Fuel & Energy Complex
- 🔥 Corrosion protection
- 🔥 Specialized Machinery for Transportation of Oil, Oil Products. Mobile units
- 🔥 Safety Systems and fire-fighting equipment
- 🔥 Environmental protection ecological safety
- 🔥 Protective equipment, special clothing

**REGIONAL
INDUSTRY
IN NUMBERS**

The Republic of Bashkortostan won the rating of the efficiency of the industrial policy of Russian regions

There are **8,259** enterprises in the Republic, including **364** large and medium-sized enterprises, **300** of them belong to the oil and gas industry

185 enterprises of petrochemical industry

more than **180** fields in commercial operation

21 million tonnes of oil produced per year

more than **18 million tonnes** of oil refined per year

100 billion cubic metres of gas transport

10.7 thousand kilometres of oil pipelines and petrochemical pipelines

PLENARY SESSION OF THE RUSSIAN PETROCHEMICAL FORUM

INDUSTRY-SPECIFIC SECTIONS:

- Current trends in the development of petrochemical industry
- Solutions for technological sovereignty in oil and gas processing
- Implementation of digital IT solutions
- Automation of petrochemical production facilities
- Natural gas consumption in the automotive sector
- Development of low-tonnage chemistry
- Corrosion protection of oil and gas equipment and pipelines
- Metrological support of oil and gas production
- Industrial Safety and Occupational safety and health at Fuel & Energy Complex Enterprises
- Petroleum-based carbon materials technologies
- New equipment and technologies for hard-to-recover hydrocarbon reserves
- Development of oil-field chemistry

YOUTH PROGRAMME

- Conference Geological-Geophysical survey of oil and gas reservoirs
- International Olympiad Processes and Apparatuses of Chemical Technology

**BUSINESS
PROGRAM**

EXHIBITION RESULTS IN 2024

- **330** participating companies
- **5** participating countries **38** regions of the Russian Federation
- 21,800 expert visitors
- **48** business programme events, **602** speakers
- **10,030** delegates-listeners
- Delegations from **10** foreign countries: Belarus, Kazakhstan, Uzbekistan, Kyrgyzstan, Azerbaijan, China, Cuba, Algeria, Iran, Iraq
- Participation of **12** federal associations and unions
- Participation of **32** scientific institutions
